

# **Extraordinary Gloss and Protection**

A perfect coating solution based on an advanced nano-coating technology for improving and protecting the exterior of new cars

- **01** A reliable data analysis system based on accurate measurements for each gloss part
- **02** A high-performance product based on a Nano Coating Technology for durability, strong superior gloss, and superb hydrophobic
- 03 The best quality control through premium care services by automotive paint coating experts

### **Paint coating agents**

**FEATURE** 

# **RX 711**

Easy and speedy paint coating agent featuring outstanding usability

Best sense of slick, superior gloss, superb hydrophobic and easy installation. It keeps beauty of new cars and helps car wash, and care.

#### Main component Polysilazane

## **RX 752**

High performance paint coating agent

Best ability and durability among Blask lineups. Nano Technology of Blask sticks glossy films and paint coating area of cars, and maintains high gloss at the level of new cars for a long time.

Main component 75% Siloxane

# **RX 520**

Well-balanced paint coating agent

Features a strong chemical resistance and antifouling to protect car from various external environmental factors Including acid rain, bird secretion, insect carcass, calcium chloride, and UV light. It presents a perfect balance ability to reasonable price and usability.

Main component 52% Siloxane

# **Leather coating agent**

## **LX 904**

Premium leather coating agent

LX 904 forms hydrophobic coating layer to protect leather from exterior dust. It protects natural texture and color of leathers to maintain the exclusiveness of cars for a long time, and prevents discoloration and antifouling to maximize the convenience.

#### **Glass coating agent**

# **GX 910**

High performance, hydrophobic glass coating agent

Perfect visibility during rains or nighttime and excellent hydrophobic performance for a long time. Not necessary to use windshield wipers with strong hydrophobic coating whenever driving more than medium speed. It repels rainwater to drive more comfortable
